

### **Hydraulics Unit**

The Hydraulics Unit will coordinate with the NC Floodplain Mapping Program (FMP) for approval of a Conditional Letter of Map Revision (CLOMR) and subsequent final Letter of Map Revision (LOMR) for each new crossing of a FEMA regulated stream.

### **Division 13 Construction**

This project involves construction activities on or adjacent to FEMA-regulated stream(s). Therefore, the Division shall submit sealed as-built construction plans to the Hydraulics Unit upon completion of project construction, certifying that the drainage structure(s) and roadway embankment that are located within the 100-year floodplain were built as shown in the construction plans, both horizontally and vertically.

In the event that unanticipated archaeological discoveries, such as unmarked cemeteries, are made during construction, the NCDOT Archaeology Group will be notified and consulted immediately for any necessary resolution or coordination with the State Historic Preservation Office, prior to any additional construction work in that area.

### **Location and Surveys Unit/Roadway Design Unit**

Unmarked graves are believed to be located behind the church building on the Mountain View Baptist Church property. The church is located on 2<sup>nd</sup> Street in Rutherfordton. Efforts will be made to locate these graves and avoid them if practicable during final surveys and design for the project.

### **Roadside Environmental Unit/Division 13 Construction**

NCDOT's native seed mix will be used throughout the project in riparian areas, where possible.
